PROFESSIONAL SUMMARY

Backend-focused Full-Stack Developer with 3+ years of experience building scalable SaaS, ERP, and enterprise web applications. Specialized in backend development using NestJS, Node.js, Express.js, TypeScript, PostgreSQL, Prisma ORM, Sequelize, and MongoDB, with strong frontend expertise using React.js, Next.js, Redux Toolkit, RTK Query, Zustand, and Tailwind CSS.

Experienced in designing modular architectures, building secure RESTful APIs, implementing JWT Authentication and Role-Based Access Control (RBAC), integrating third-party services, optimizing database performance, and delivering production-ready applications from planning to deployment.

Passionate about clean architecture, scalable software design, performance optimization, and solving complex business problems.

PROFESSIONAL EXPERIENCE

Freelance Backend / Full-Stack Developer

July 2022 – Present

- Designed and developed scalable SaaS and ERP systems for real-world business requirements.
- Built modular backend architectures using NestJS, Node.js, Express.js, and TypeScript.
- Designed secure RESTful APIs implementing JWT Authentication and Role-Based Access Control (RBAC).
- Developed responsive frontend applications using React.js and Next.js.
- Designed and optimized PostgreSQL and MongoDB databases.
- Worked with Prisma ORM and Sequelize ORM for data modeling and query optimization.
- Built production-ready dashboards and admin panels for enterprise clients.
- Integrated Cloudinary and other third-party APIs into production systems.
- Improved application performance and maintainability using clean architecture principles.
- Delivered complete full-stack solutions from planning through deployment.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Backend: NestJS, Node.js, Express.js

Frontend: React.js, Next.js, Vite, HTML5, CSS3, Tailwind CSS, shadcn/ui, Material UI, PrimeReact, Flowbite

State Management: Redux Toolkit, RTK Query, Zustand, Context API

Databases: PostgreSQL, MongoDB

ORM: Prisma ORM, Sequelize ORM

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Authorization

Forms & Validation: React Hook Form, Zod, Joi, Yup

API Development: REST APIs, Axios, API Integration

DevOps & Tools: Docker, Git, GitHub, Postman, Swagger / OpenAPI

Software Engineering: Clean Architecture, SOLID Principles, Modular Architecture, Performance Optimization, Responsive Design, Enterprise Applications

FEATURED PROJECTS

Fairia — Full-Stack Web Application

Key Features: Scalable full-stack application with a responsive frontend and integrated backend APIs.

Tech Stack: React.js, Redux Toolkit, Tailwind CSS, Node.js

WADI — *Business Platform*

Key Features: Responsive web application with reusable components and optimized performance.

Tech Stack: React.js, Tailwind CSS, Redux Toolkit

Stable Management System — *Horse Stable & Coffee Shop Management System*

Key Features: Horse management, customer management, trainer management, coffee shop module, invoice system, dashboard, analytics.

Tech Stack: React.js, Node.js, Express.js, MongoDB

Workspace SaaS — *Multi-Role Workspace Platform*

Key Features: Authentication, RBAC, workspace management, REST APIs, dashboard.

Tech Stack: Node.js, Express.js, MongoDB

Deliveria Backend — *Delivery Management Backend*

Key Features: Order management, delivery workflow, real-time tracking, JWT authentication, RBAC.

Tech Stack: NestJS, PostgreSQL, Prisma ORM

EgyptaPro Backend — *Enterprise Backend System*

Key Features: Modular architecture, business logic layer, authentication, REST APIs.

Tech Stack: NestJS, TypeScript, PostgreSQL, Prisma ORM

AdWall Backend — *Advertisement Management Platform*

Key Features: Campaign management, authentication, REST APIs, analytics.

Tech Stack: Node.js, Express.js, MongoDB

E-Commerce Dashboard — *Admin Dashboard*

Key Features: Product management, order management, user management, dashboard analytics.

Tech Stack: React.js, Redux Toolkit, RTK Query, Tailwind CSS

Dive Log — *Social Media Platform for Divers*

Key Features: Authentication, user profiles, posts, community features.

Tech Stack: React.js, Node.js, MongoDB

Portfolio Website — *Personal Portfolio*

Key Features: Responsive design, SEO optimization, dark/light theme, performance optimization.

Tech Stack: React.js, Vite, Tailwind CSS

EDUCATION

Bachelor of Computer Science

Damietta University — Grade: Good

LANGUAGES

Arabic — Native | English — Conversational
